

**Next meeting 5 Oct 2016
0600 PM to 0900 PM**

Guest Speaker: Kelly Sobczak
Fishing the Kenai and Goodnews Rivers

Kelly and Wes Sobczak are good friends and members of our club. They joined the TBFFC after moving from Alaska where Kelly worked as an environmental engineer. Kelly's job takes her to many exotic locations and fuels their travel bug. Kelly and Wes have been on many adventures and never go back to the same place twice, rather seeking out new and exciting venues. Kelly researches each new location carefully to get the most out of each trip. One of their trips this year was a return to Alaska to fish the Kenai and Goodnews rivers. Kelly is also a great photographer and will share her pictures, planning and details of the trip with us. Please join us for a fun and informative presentation.

Jeff Janecek will tie some of his famous fresh water bugs for us. This will prepare folks for our **Carl Hanson** outing on the Hillsborough River on 23 October. Please join us for this friendly competition with the **Suncoast Fly Fishing Club** in St Pete. Lunch and drinks provided.

Directions to Our Meetings (0600pm): From I-75---Take Bruce B. Downs exit from I-75; go west 2 miles to traffic light, turn left on to Tampa Palms Blvd., then left on Compton Drive, and right at Compton Park. From I-275---Take Bearss East to Bruce. B. Downs; then Bruce B. Downs east/north to Tampa Palms Blvd. Rt. on Tampa Palms, then left on Compton Drive and right at Compton Park.

PRESIDENT'S MESSAGE

Welcome to October and our Fall weather and tides. Fishing should improve with cooler water and I encourage you to get your line wet.

Thanks to **Capt. Dave Dant** for his presentation on how to find and catch fish on the fly. I learned a few things and we appreciate his sharing that knowledge with the club. Thanks to **Smitty** for his Neon Knight fly. We can always count on **Smitty** for a great new pattern, expertly tied.

Try to remember to check out and update our Facebook page. Anyone can view the page without signing up for Facebook. Just go to Facebook.com and search for TBFFC. Email **Rick O'Hara** flyguy47@verizon.net and he will add your photos for you if you can't figure it out.

I just got a new book by **Chico Fernandez**, *Fly Fishing for Redfish*. I have not read it all yet, but it holds a wealth of information and beautiful pictures. Also, great stories from Chico from around South Florida and elsewhere. I recommend it.

Please note my new email: walt.durkin@aol.com

// Walt 

EVENTS

- Englewood Outing, 1-2 October **(cancelled)**
- Chattooga River trout trip, 13-18 Nov
- Casting Clinic, Picnic Island, **3 Dec**
- Big Gun, Picnic Island, 20 Nov
- Hooky at the Hatchery, 9 Dec

OFFICERS AND DIRECTORS

President: Walt Durkin 813-476-7128
walt.durkin@aol.com

Vice President: Ted Hagaman 813-920-7863

Treasurer: Rick Valeri 813-681-9143

Secretary: Dick Miekka 727-866-8682

Directors

Patty Anderson 813-960-8523

Pat Damico 727-504-8649

Robert Fischer 813-962-0185

Bruce Anderson 813-960-8523

Rick O'Hara 813-238-6763

2016 TBFFC MEETING DATES

This month's meeting is **5 October** from 6 to 9 PM.

TBFFC NEWS & NOTES

Club Flag Project: Patty Anderson has completed our club flag project and we have six flags ready to travel the world on your fly fishing adventures. We took one to British Columbia at the end of August and will bring one to Brazil in October. You can check out a flag at any meeting for your travels. Just promise to take a picture showing your location and a great catch on the fly if possible. Our flag traveled to British Columbia in late August as depicted below. Ted and I floated the Elk River for West Slope cutthroats.

IFFF Florida Expo, 4-5 November, Plantation in Crystal River. This is a great event that supports our national organization. Watch this space for more details or check online. **See page nine for this year's poster.**

Costa de Cocas Mexico Trip 29 Oct -5 Nov. Our annual trip to Mexico still has a couple of openings. This super trip is \$2250, a great value for 7 nights and 6 days of tropical fishing for bonefish, tarpon and permit. Diving on the reef is also available. Great accommodations, guides; food and drinks all included. I go every year and would not miss it. Contact **Frank Rhodes** captfranksnookon@tampabay.rr.com to reserve your spot.

Capt. Pat Damitco offers this tip from Lefty: <http://www.orvis.com/news/fly-fishing/video-lefty-kreh-in-his-own-words/>

TBFFC NEWS & NOTES, CONT.

Chattooga River Trip. We have changed the dates of this trip to 13-18 November. We are staying in the log cabins at the Oconee State Park in S Carolina. We have reserved cabins 18, 19 and 20. Please see me or **Ted Hagaman** at the next meeting if you would like to go. The Chattooga, a Wild and Scenic River, is fairly easy to wade and really beautiful. We will fish the delayed harvest season (catch and release) for rainbows, browns and brook trout.

Casting Clinic on Picnic Island 3 Dec. Please join us for this casting clinic hosted by **Capt. Pat Damico**. Pat and club members to include **Dayle Mazzarella, Steve Parker** and others will provide expert instruction. This event supports the Federation of Fly Fishers and is free to all who are FFF members; so, please join. Come along and fine tune your casting and we will provide lunch and drinks. Please note **3 Dec** is a new date moved from November.

Two Memorial Outings: I added two more outings to our list at the end of the newsletter. On 23 October we will have our annual **Carl Hanson** Outing on the Hillsborough River with the Suncoast Club. This is a great morning of fishing followed by lunch. We also have a friendly competition with the Suncoast for the most or biggest fish. Additionally, the Suncoast will host the **Don Coleman** Classic on the 18 December at Ft Desoto. More details to come on this outing at which we remember the life of Don Coleman. Don and Carl were both icons of local fly fishing and fondly remembered by many anglers.

Englewood Outing Cancelled. We would have fished out of Buchan's Landing Resort the weekend of 1-2 October, but cancelled this event due to low attendance. We will try again next year as this is a great venue for fishing.

Tips for TBFFC

People always ask me what fly to use. I hand them one of these and say, "Learning to use this well will give you the best opportunity to catch fish!" Carpenter's chalk line available at Lowe's or Home Depot works well.

Capt. Pat Damico

See comments below from Lefty Kreh:

Many years ago I attached yarn to the leader when casting. I was never satisfied with the results for the little yarn ball never felt like a fly but more like a miniature parachute, making it difficult for the tippet to turn over. I stop using it.

Maybe 10 years ago I was in St Pete, Florida with Pat Damico, an FFF fly casting instructor and old friend, who showed me what I regard as an excellent answer. Pat uses soft surveyors cord or similar material. He cuts a short length, folds it and ties a knot. I prefer making a small nail knot rather than a knot.

I've attached a photograph. A knotted example is on the left in the photo and the rest are secured with a nail knot. Fray the two legs with a needle and attach the tippet to the looped eye. The shortest one in the photograph is used when casting a dry fly and when casting bigger flies use the looped yarn with longer legs.

Pat's looped yarn gives the impression of casting a real fly. It doesn't tangle in the grass or in the trees and costs less than a penny to make. If you are taking casting photos the Pat's gadget looks just like a fly.

To give the impression you're casting a weighted fly I double several lengths of lead core fly line and whip finish a loop to stabilize the legs.

(Update from Pat Damico – Lowe's and Home Depot have bright colored cord that is used for carpenter's chalk, to strike a line. One spool will last several lifetimes. Take your choice. When people ask me what fly to use for success, I hand them one of these. "Learn to use this well and you will catch a lot of fish," is my usual reply.) <http://wildoutfitting.com/wordpress/?p=249>

Fly of the Month

Smitty's Neon Knight

The Neon Knight is fished in the same manner as any baitfish imitation. Let it sink a bit and vary the retrieve from short to long strips depending on your target. You will find it lands softly and sinks slowly, as the synthetics do not absorb water. It is a favorite fly in the Everglades for skinny water snook and reds as well as an excellent fly for tarpon. Tarpon can't resist the greenish glow it produces in deeper-water situations.

Materials:

Hook:	Gamakatsu SC15 size 2/0
Thread:	Clear mono, 3/0
Flash:	Flashabou, white glow-in-dark
Body & Wing:	EP Fiber, white glow-in-the-dark
Throat:	Flashabou, pink glow-in-dark
Topping:	Krystal Flash, white glow accent
Eyes:	¼" 3-D asymmetric mirage eyes

Step 3: Wrap thread forward to hook eye for a wing base. Cut a medium-size bunch of EP Fiber and tie them facing forward, with the back end aligned with the throat wrapping back to throat. Secure by wrapping toward the eye. All fibers for the wing should be forward of the eye.

Step 4: Pull all the fibers back together and move the thread to the eye. Once all fibers are pulled back, jump the thread on top of the EP Fiber and wrap a tight, neat head.

Step 5: Add a small bunch of Krystal Flash as topping for the wing. Then trim excess material at an angle, starting at the back and moving toward the hook point. This step is important, as the tapered fibers keep the longer material in back from fouling around the hook.

Step 6: Secure head and add mirage eyes. You can also add a bit of thinned clear acrylic cement to the entire head to maintain shape.

Tying Sequence:

Step 1: Attach thread midpoint on the hook, and wrap a base to apply a small bunch of EP Fiber for tail and then add a small bunch of Flashabou directly on top of the EP Fiber.

Step 2: Turn hook over and tie in a throat of pink Flashabou. Trim just short of hook point.

The BIG GUN SHOOT-OUT

Sponsored by the **Tampa Bay Fly Fishing Club**

Sunday, November 20 at 9:00 a.m.

Picnic Island Park, Tampa (Shelter #611)

Experts and beginners alike are invited to test their fly casting skills at the Tampa Bay Fly Fishing Club's annual "Big Gun Shoot-Out" casting competition!

Individuals and teams of 3 are welcome!

Plaques will be awarded for highest scoring individual, highest scoring teams, and the "Big Gun," the overall distance casting champion.

Contestants will participate in competition stations that mimic the challenges of fly fishing, such as casting under the mangroves, into a cup of water, or through a hoop suspended a few feet off the ground. Come out and give it a try – you'll be hooked!

The competition will run from 9 am - 12 pm. There is NO entry fee, and lunch will be provided to all contestants. You may use your own rod for all competition stations except the Big Gun distance contest. Volunteers also are needed to help set up the course and score contestants.

CONTACT: Rick O'Hara (flyguy47@verizon.net)

Please let us know if you are coming by 11/13 so we can order adequate food and beverages

This is the oldest multi-species, fly fishing only tournament in the State of Florida.

FFF Seeking Fly Tyers for the Expo

The Florida Council of the International Federation of Fly Fishers will host our 2016 Fly Fishing Expo this year at the Plantation on Crystal River on November 4-5, 2016. You may have attended when we hosted the Expo at this same location in 2014.

The purpose of this mailing is to extend a special invitation for you to tie as a demonstration fly tier during our Expo. The Plantation is located at 9301 W. Fort Island Trail in Crystal River, FL 34429, where rooms have been reserved at a rate of \$109/night plus tax. I suggest that you make your reservations soon by calling 1-800-632-6262 and mention Florida Council Federation Fly Fishers 2016. Also watch for pre-registration to be posted very soon on the Florida Council website.

Demonstration fly tying will be scheduled for Friday and Saturday with sessions in the afternoon on the 4th and morning and afternoon sessions on the 5th. The Friday afternoon session will be 1:00 pm – 5:00 pm, the Saturday morning session will be 9:00 am – 12:00 am and the afternoon sessions will be 1:00 pm – 4:00 pm. Tiers should arrive 30 minutes before their scheduled session begins and have their tying stations clean within 30 minutes after the session ends. Space will be limited; so, it will be very important that all demonstration tiers only bring the materials and equipment necessary to demonstrate and display the patterns you will be tying. Do not bring extra materials and displays that will crowd other tiers' table space or block floors where tiers will need to walk. Tiers also must be a member in good standing with the International Federation of Fly Fishers. Drop cords should be provided, but please bring extension cords as back up for your lights.

Tiers, also please plan on bringing a small collection (perhaps 6) of the flies you will be demonstrating as a donation to our auctions. Your contributions to our auctions are very important to our fundraising during the Expo and very much appreciated. You also may send your raffle flies directly to me at:

Tom H. Logan, Expo Co-chairman

1167 Green Hill Trace

Tallahassee, FL 32317

850-212-5396

Tony and Carol Smith fished the Yellowstone recently and had good luck with cutthroats; Rich Gorden spent a day fishing in Spotsylvania, VA and caught his first smallmouth bass, several on fly; Capt Bryon Chamberlin with one of three bonefish he caught while fishing with his friend Capt. Carl Ball in mid September in Biscayne Bay. Bryon also had lots of shots at permit with several hard follows; they just forgot to open their mouths.

Captain Rick Grassetto guided his clients to good fishing in September with tripletail, little tunny and reds. Look at our fishing report for tips on how to find your great catch!

Our new traveling club flags are on the move! Bruce and Patty Anderson took one to Colorado and Walt and Ted traveled to British Columbia on the Elk River. Check a flag out at any meeting and share your photo with club members.

Fishing Report and Forecast

“What a great time to go fishing!”

Capt Pat Damico provides this report from his Captain’s Corner. This is the time when the shipping channel and most area passes are filled with massive schools of baitfish. Little tunny (bonito or false albacore) are following these smaller fish and offer opportunities for fly rod enthusiasts. A moving tide, either incoming or outgoing, gets these speedy predators active. Noisy diving terns and gulls will tell you where the fish are. The action will be seen by others who often mistakenly motor into the school, putting the fish down. A bow-mounted electric motor is ideal for positioning your boat ahead of the fish, letting them come to you. For outboards, idle into position well ahead of the action and shut off your motor. Cast your 9 weight fly rod with a sinking tip or intermediate full sinking line ahead of the fish. Larger fish are usually deeper so give weighted flies a little time before starting a fast retrieve. Use small flies the size of escaping baitfish. Instead of one hand stripping, place the fly rod under your arm and use both hands, moving the fly very fast. Use reels with a good drag and 150 yards of backing.

Kayak guide Neil Taylor reports the start of Fall will mean even better action and it’s good to close out summer. The best action continues to be early in the day. Pompano and trout action has been solid. Redfish are getting better with the biggest redfish of the year being caught right now. Flies with a lot of gold in them have worked best, especially on the redfish.

Walt Durkin reports while fishing MacDill for a couple of hours I was not seeing much. Finally, here comes a big school of reds tailing along the flat. I cast a shrimp fly into the edge of the school and immediately hook up. The fish swims to my left and the reds continue by on both sides of me, maybe 50 fish. I was surprised to see I had hooked about a 12 pound snook among all those reds! Fishing is full of surprises.

Capt Rick Grassette reports the flats of Sarasota Bay and the coastal Gulf of Mexico will turn on this month. Schools of reds will begin to break up and scatter on shallow flats of Sarasota Bay. There should also be good action with snook and big trout in shallow water. Snook will gorge themselves at night around lighted docks in the ICW. There will also be good action in the coastal gulf with Spanish mackerel, false albacore (little tunny), tripletail and cobia. You might still find tarpon anywhere from upper Charlotte Harbor and Tampa Bay to along the beaches.

Snook will move away from passes as water temperature cools and days get shorter. They will stage around docks and bridges in the ICW and along sand bars, potholes and along mangrove shorelines. They may blow up on fly poppers in shallow water early or late in the day. Small white flies or Gurglers should work well around lighted docks and bridge fenders. I like larger flies, like Lefty's Deceiver and EP flies, for snook on the flats due to the larger bait usually found there. Fish peak tidal flows for the best action.

Tarpon will still be an option this month. I've found them in upper Charlotte Harbor this time of year. Look for them feeding in ladyfish schools or rolling in deep water to find them. Many of the same flies that work for sight casting to tarpon along the beaches will work in upper Charlotte Harbor. I use 12-wt fly tackle with a floating or clear intermediate sink tip line for large tarpon. You'll also find juvenile tarpon from 10 to 30-pounds in many creeks and canals of the Peace or Myakka Rivers. Fly anglers can handle the smaller fish on 8 or 9-wt fly rods with fast sinking fly lines and a scaled down version of any fly that large tarpon will eat. I've also found tarpon feeding heavily in the coastal gulf in October. They are usually scattered over a broad area, feeding and "blowing up" in bait schools. This "reverse migration" may only last for a few days but it can be really good!

Big schools of reds that were more common in August and September will begin to break up into smaller schools, singles and doubles this month. As water cools and baitfish school up, reds will feed in shallow water. I like to pole my flats skiff to hunt for reds in shallow water. Focus on baitfish or mullet schools to find them. If the tide is very low, weed guards are important on your flies to fish thick turtle grass. Once I've located fish, wading is often the best way to approach them. I like a long leader (12') on a floating fly line with a lightly weighted fly, like my Grasset Flats Minnow. When you have good sunlight, you may be able to sight fish them on light colored bottom, like sandbars or potholes.

You'll also find big trout in many of the same areas in shallow water. I would approach locating big trout the same way as reds. Focus on baitfish or mullet schools to find them and use the same flies to catch them. Some of the best action that I've experienced with big trout was at first light with big trout feeding in baitfish schools in very shallow water.

You'll find trout of all sizes on deep grass flats. Wherever there are small trout, there may be a few "gators" around since big trout will eat small ones. You should also find blues, Spanish mackerel or pompano mixed with trout. In addition to focusing on bait and birds, I like to drift and cast ahead of the drift with a lightly weighted fly on a sink tip fly line to find fish. When toothy fish are around add 6" of heavy fluorocarbon (60-lb) or wire to prevent cut offs. You may find tripletail or cobia around buoys, crab trap floats or channel markers in inside waters or the coastal gulf. Fly anglers should score on tripletail with lightly weighted flies with a weed guard. A wide profile tarpon fly on a minimum of 9-weight fly tackle will get the job done with cobia.

Look for Spanish and king mackerel or false albacore in the coastal gulf. I look for diving terns or "breaking" fish to find them. Fly anglers should score with olive, chartreuse or white flies, poppers and Crease flies. You'll need wire or heavy fluorocarbon when mackerel are in the mix. You may also find a few kings around the edges of feeding frenzies. I don't usually target kings, but occasionally catch one when fishing breaking mackerel or albies. You can also look for tripletail or cobia around crab trap floats, buoys or channel markers while searching for mackerel or albies in the coastal gulf.

October is one of my favorite months. It's nice to do something different, so I like to fish the coastal gulf for mackerel, false albacore, tripletail and cobia when conditions are good. There will also be good action on shallow flats of Sarasota Bay with reds, trout and snook or tarpon of all sizes in upper Charlotte Harbor. Night snook fishing in the ICW heats up as the water cools down. Whatever you choose to do, please limit your kill, don't kill your limit!

2016 CALENDAR OF EVENTS

- Jan 8-10 Annual Shad Outing, St Johns river
- Jan 13 FWC Snook Symposium
- Feb 8-14 Christmas Island one week trip
- Mar 5 Casting Clinic at Maximo Park
- Mar 6 Annual Banquet
- Apr 22-23 TBFFC Everglades Weekend Trip
- Jun 18 Lake Calm Outing
- Oct 1-8 Amazon River Trip
- Oct 8-9 Florida Sportsman Show
- Oct 23 Carl Hanson Outing on the Hillsborough
- Oct 1-2 Englewood Outing **Cancelled**
- Oct 29-Nov 5 Xcalac Mexico One-Week Trip
- Nov 4-5 IFFF Expo Plantation in Crystal River
- Nov 13-16 Chattooga River Trip in Georgia
- Dec 3 Casting Clinic on Picnic Island
- Nov 20 Big Gun Shootout, Picnic Island
- Dec 9 Play Hooky at the Hatchery
- Dec 18 Don Coleman Classic at Ft Desoto

Member Benefits

TBFFC is famous for its value and focus on the sharing of information, experience, and craftsmanship with its members. As a TBFFC member you will enjoy many benefits free or at nominal cost.
